Higher Secondary   WBCHSE, WB	2021

## TECHNICAL SKILLS

PYTHON | HTML5 | CSS | JAVASCRIPT | FLASK | GITHUB | MYSQL | OOP | C | DATA ANALYTICS | TABLEAU  
| MICROSOFT OFFICE

## PROJECT

**Project Name:** Amazon Product Scraper Web Application

**Tech Stack:** Python, Selenium, Flask, Tailwind CSS, Pandas, GitHub

**Deployment:**

- Developed a responsive, modern web application that scrapes product data from Amazon using Selenium and displays results based on user input.
- Implemented real-time web scraping of product listings (pages 1–20) and exported results to downloadable CSV files.
- Designed a dynamic front-end using Tailwind CSS with dark mode and mobile responsiveness for enhanced user experience.
- Integrated Flask backend to handle form input, trigger scraping logic, and manage file generation and download.

**Project Name:** College Management System

**Tech Stack:** WordPress, HTML, CSS, JavaScript

**Deployment:**

- Developed a College Management System with a fully responsive design using WordPress and custom front-end technologies (HTML, CSS, JavaScript).
- Implemented a dynamic dashboard for both students and faculty, tailored to their respective roles and permissions.
- Integrated a secure authentication and authorization system to manage user access and ensure data privacy.
- Designed the UI to be mobile-first and fully responsive, delivering a smooth experience across all devices.
- Successfully deployed the system, ensuring reliability, usability, and real-time access for end-users.
